

LINTANG MAHARANI

Informatics Engineering Student

Batam, Riau Islands, Indonesia • maharanilintang83@gmail.com • +62 896-0298-8781

PROFILE

An Informatics Engineering student at Batam State Polytechnic with a strong interest in web and application development. Experienced in both frontend and backend development through various academic projects using Laravel, React, Next.js, and Express.js. Comfortable working independently as well as in team environments, with strong problem-solving skills and a high willingness to learn. Eager to contribute to web-based application development projects.

PROJECT EXPERIENCE

Organizational Governance Transformation: Non-Conformance Management and Follow-Up Application (Semester 4) Feb 2026 – Jun 2026

Built a non-conformance management system using Next.js and Express.js. Features include reporting issues, assigning corrective actions, and tracking resolution status.

Final Thesis Guidance Web Application (Semester 3) Sept 2025 – Jan 2026

Developed a thesis guidance scheduling app using React.js and Express.js. Implemented REST API, asynchronous data handling, and responsive UI. Used GitHub for team collaboration.

Online Food Ordering System (Semester 2) Feb 2025 – Jul 2025

Built a food ordering platform using Laravel. Created menu and order management features with separate admin and user dashboards. Applied MVC architecture and routing concepts.

Book Borrowing Web Application (Semester 1) Aug 2024 – Jan 2025

Built a web-based book borrowing system using PHP, XAMPP, and MySQL. Implemented CRUD functionality for users, books, and transactions. Designed database structure and focused on usability and clean interface.

CERTIFICATIONS

- Product Management: From Concept to Launch – Ioda Academy (2026)
 - Search Engine Optimization (SEO) – Ioda Academy (2026)
 - AI Fundamentals & Responsible AI – Plan International (2025)
 - Financial Literacy & Job Readiness – DBS Foundation & Plan Indonesia (2026)
-

ACHIEVEMENTS

- ISSC 2025 – Gold (Math, Physics, Chemistry, English)
- KSMI – Gold (Economics), Bronze (Math, English)
- Isaac Newton Competition – Gold (Math, Physics, Chemistry)
- Cendekia (UI) – Gold (History), 2nd Place Overall

EDUCATION

D3 Informatics Engineering Batam State Polytechnic – Faculty of Engineering GPA: 3.65 / 4.00	2024 – Present
SMAN 18 Batam athematics and Natural Sciences (MIPA)	2021 – 2024

ORGANIZATION

Batam Linux User Group (BLUG) Programming Division Member	(2025 – Present)
---	------------------

SKILLS

- Programming Languages: PHP, JavaScript, TypeScript, SQL
- Frontend Development: React.js, Next.js, Tailwind CSS
- Backend Development: PHP (Native), Laravel (Blade), Node.js, Express.js
- Database: MySQL
- Tools & Platforms: Git, GitHub, VS Code, Postman, Figma
- Others: REST API

SOFT SKILLS

- Problem Solving
 - Communication
 - Adaptability
 - Teamwork
 - Continuous Learning
-

LANGUAGES

- Indonesian – Native
- English – Intermediate (written & basic conversation)
